

SCOPE OF ACCREDITATION TO ISO/IEC 17025:2017

LEAKMASTER, INC.
1992 South 100 West, Suite A
Princeton, IN 47670
Barry Money Phone: 812 437 8378

CALIBRATION

Valid To: February 28, 2025

Certificate Number: 6119.01

In recognition of the successful completion of the A2LA evaluation process, accreditation is granted to this laboratory to perform the following calibrations^{1,3}:

I. Fluid Quantities

| Parameter/Equipment | Range | CMC ^{2,4} (±) | Comments |
|----------------------------------------------------------|------------------------|------------------------------------------|-----------------------------------------------------------------------|
| Gas Flow Rate Into Atmosphere (Calibrated Leak Standard) | (0.5 to 50) sccm | 1.2 % or 0.10 sccm, whichever is greater | Positive displacement primary piston prover for gas flow measurements |
| | (50 to 2000) sccm | 1.4 % | |
| | (2000 to 100 000) sccm | 1.2 % | |

¹ This laboratory offers commercial calibration service.

² Calibration and Measurement Capability Uncertainty (CMC) is the smallest uncertainty of measurement that a laboratory can achieve within its scope of accreditation when performing more or less routine calibrations of nearly ideal measurement standards or nearly ideal measuring equipment. CMCs represent expanded uncertainties expressed at approximately the 95 % level of confidence, usually using a coverage factor of $k = 2$. The actual measurement uncertainty of a specific calibration performed by the laboratory may be greater than the CMC due to the behavior of the customer's device and to influences from the circumstances of the specific calibration.

³ This scope meets A2LA's *P112 Flexible Scope Policy*.

⁴ In the statement of CMC, percentages are percentage of reading unless otherwise indicated.

Accredited Laboratory

A2LA has accredited

LEAKMASTER, INC.

Princeton, IN

for technical competence in the field of

Calibration

This laboratory is accredited in accordance with the recognized International Standard ISO/IEC 17025:2017 *General requirements for the competence of testing and calibration laboratories*. This laboratory also meets R205 – Specific Requirements: Calibration Laboratory Accreditation Program. This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory quality management system (refer to joint ISO-ILAC-IAF Communiqué dated April 2017).

Presented this 13th day of December 2022.

A blue ink signature of a person, likely the Vice President of Accreditation Services, written over a horizontal line.

Vice President, Accreditation Services
For the Accreditation Council
Certificate Number 6119.01
Valid to February 28, 2025
Revised October 9, 2023

For the calibrations to which this accreditation applies, please refer to the laboratory's Calibration Scope of Accreditation.
